

CONTENTS

Introduction

| | |
|---|---|
| Structural durability - A controversial research field of current interest H. Hanselka | 3 |
|---|---|

Opening Lecture

| | |
|--|----|
| Darmstadt's basic contribution to structural durability - Historical review V. Grubisic, K. H. Kloos, T. Seeger | 11 |
|--|----|

Kurt Klöppel Lectures

| | |
|--|----|
| Life cycle prediction of existing bridges U. Peil | 83 |
|--|----|

| | |
|---|----|
| Modelling and fatigue life assessment of complex fabricated structures G. Marquis, J. Samuelsson | 95 |
|---|----|

| | |
|---|-----|
| Effects of residual stresses on the fatigue behaviour of welded steel structures W. Fricke | 111 |
|---|-----|

| | |
|---|-----|
| Fatigue of welded hybrid-joints R. Schliebner, M. Vormwald | 125 |
|---|-----|

Ernst Gaßner Lectures

| | |
|---|-----|
| Fatigue behaviour of welded structures of bus frames G. Savaidis | 145 |
|---|-----|

| | |
|---|-----|
| Structural durability in automotive design J.-J. Thomas, T.M.L. Nguyen-Tajan, P. Burry | 159 |
|---|-----|

| | |
|--|-----|
| Local assessment concepts for the structural durability of complex components C. M. Sonsino, G. Fischer | 175 |
|--|-----|

| | |
|---|-----|
| Standardized load-time histories - A contribution to durability issues under spectrum loading P. Heuler, T. Bruder, H. Klätschke | 193 |
|---|-----|

| | |
|---|-----|
| Lifetime assessment of thin steel sheet structures K. Nikkel, A. Esderts | 211 |
|---|-----|

| | |
|---|-----|
| Railway fatigue failures: An overview of a long standing problem R. A. Smith | 225 |
|---|-----|

August Thum Lectures

| | |
|--|-----|
| Crack opening displacement approach to assess multiaxial low cycle fatigue M. Sakane, T. Itoh, D. Tchankov, N. Hamada | 241 |
|--|-----|

| | |
|--|-----|
| Fatigue-life analysis of riveted-lap-joint panels under ambient and salt-water conditions J. C. Newman, R. S. Piascik | 253 |
|--|-----|

| | |
|---|-----|
| Structural durability of magnesium alloys and components S. Werdin, T. Trossmann, M. Gugau, K. L. Kotte, | 271 |
|---|-----|

| | |
|--|-----|
| Fatigue behaviour of technical springs B. Kaiser, C. Berger | 289 |
|--|-----|

| | |
|---|-----|
| Deformation and life assessment of high temperature materials under creep-fatigue loading A. Scholz, C. Berger | 311 |
|---|-----|

New Horizons in Structural Durability

| | |
|--|-----|
| Structural health monitoring for enhanced understanding of the damaging process in structures C. Boller | 331 |
|--|-----|

| | |
|--|-----|
| Design of a smart interface for vibration reduction in complex structures T. Meiz, M. Matthias, M. Thomaier | 347 |
|--|-----|

| | |
|---|-----|
| Future of structural durability in Darmstadt C. Berger, H. Hanselka, M. Vormwald | 359 |
|---|-----|
